Product Description:

With its easy-to-clean design, the Baby Cow Feed Bucket is suitable for both milk and water. You can easily clean it after every use and keep it in pristine condition. This makes it a convenient and practical option for those who have a lot of calves to feed.

The Veal Rearing Pail is made of high-quality PE material, which makes it sturdy and long-lasting. You can be confident that this product is built to withstand the rigors of daily use. It is also suitable for use in all kinds of weather conditions.

The lid function of this calf feeding bucket is particularly noteworthy. With its cover design, it keeps dust and flies away from the milk, ensuring that it remains clean and hygienic. This is especially important for the health and well-being of your calves.

In summary, the Steer Nurturing Pail is a must-have for anyone who is involved in calf rearing. Its easy-to-clean design, suitability for water and milk, lid function with cover design, and high-quality PE material make it an excellent choice for those who want to provide the best care for their baby cows. Order yours today and experience the convenience and practicality of this versatile product!

Features:

Product Name: Calf Feeding Bucket

Durable: Yes

Bucket Material: PE

Teat	Could Be With 12 Teats
Lid Function	With Cover Design, Dust And Flies, Keep Milk Clean And Hygienic
Capacity	55 Liters
Suitable For Water	Yes
Suitable For Calves	Yes
Durable	Yes

Applications:

1. Feeding Milk to Calves: The Chuangpu HL-MP70E Calf Feeding Bucket is designed to be suitable for milk. It comes with an anti-backflow check valve fixed nipple, which prevents the milk from flowing back and avoids the choking of milk. This makes it an ideal tool for feeding milk to calves, ensuring that they get the necessary nutrients and grow healthily.

2. Easy to Clean: The bucket is made of PE material, which is easy to clean and maintain. It is durable and long-lasting, ensuring that it can be used for a long time without any wear and tear. This feature makes it a perfect fit for farms and ranches where hygiene is a top priority.

3. With Cover Design: The Chuangpu HL-MP70E Calf Feeding Bucket comes with a lid that helps keep the milk clean and hygienic. The cover design also prevents dust and flies from getting into the bucket, ensuring that the milk is safe for the calves to consume.

4. Veal Rearing Pail: The HL-MP70E Calf Feeding Bucket can be used for rearing veal, which is the meat of young cattle. It is an essential tool for farmers who want to raise healthy and high-quality veal. The bucket is designed to be easy to use, ensuring that farmers can feed their calves without any hassle.

Overall, the Chuangpu HL-MP70E Calf Feeding Bucket is a practical and versatile tool for feeding milk to calves. Its anti-backflow check valve fixed nipple, easy-to-clean PE material, and cover design make it ideal for use in farms, ranches, and other livestock facilities. Its suitability for milk and veal rearing pail feature makes it a must-have for every farmer who wants to raise healthy and high-quality calves.

STYLE 7
